DECORATING YOUR BALL

- Decorate your ball with beads, safety pins, or paper pins.
- You could make the ball to look like a germ, a critter or a Christmas decoration.
- And you could use it as a stress ball, a tumble-drying ball to reduce your clothes getting wrinkly or a colourful sculpture to go on your mantel piece.

The act of wrapping something old, ugly or unwanted into beautiful material and transforming it into a cheerful ball puts a smile on my face every time.
