

## Sustainable Fashion

Let's teach our children to express themselves using what we already have.

Let them learn about materials: what they are, where they come from, and how they are made. The future designers and innovators are made in Marlay in this summer camp.

## Want to know more?

Reach out to Niki- she would show you all you want to see.

## Proper Fun.

Each day try a new project.

Each project shows different materials.

Each material teaches a new skill.

Each skill inspires you to try different tools.

## So much Learning

Book on Eventbrite or call Niki.
